

# TechDraw FT 305 Synthetic Drawing Compound

Heavy Duty, Synthetic

## DESCRIPTION:

**TechDraw FT 305** is a heavy – duty synthetic drawing / stamping compound concentrate is formulated with extreme pressure additives which will reduce part gulling and fracturing and increase die tooling and coating life. **TechDraw FT 305's** unique low-foaming formulation does not contain chlorine, sulfur, oil, or pigments and is easily removed where clean surfaces are required in subsequent operations such as welding. **TechDraw FT 305** can be used neat or diluted as low as 20:1 in water depending on the substrate and severity of the application.

**TechDraw FT 305** will perform on CRS, HRS, HSS, HSLA, SS, Aluminum and Dual Phase substrates.

## TYPICAL PROPERTIES (NOT SPECIFICATIONS):

Appearance	Translucent
Density	
pH	

## FEATURES / BENEFITS:

- Provides excellent lubricating properties that protect parts and tooling
- Imparts excellent in-process corrosion protection
- Contains no chlorine, sulfur, oil or pigment
- Easily cleaned with mild detergents
- Hard water stable
- Non-staining
- Low foaming

## MIX / APPLICATION & USE:

Always add TechDraw FT 327 to water with agitation.

Dilution range is from 5-10 parts water to 1 part TechDraw FT 327. TechDraw FT 327 can be applied using spray, roll-coater, drip or brush applications. Your Fortech Customer Sales Representative will work with you on a proper dilution and mixing approach
